# A TEA CYCLOPÆDIA.

It has been suggested by several persons that a Re issue of such portions of the *Tea Gazette* back Volumes (Vols I to VII) as refer to subjects of *permanent interest information and instruction*, would, if carefully classified, indexed, and produced in the form of a handy volume (say of the size of the *Cornhill Magazine* but of some 250 or 300 pages) prove an invaluable Work for every Planter's, Owner's and Agent's Bookshelf.

Many subscribers have failed to keep their files and nearly all the back Nos being out of print reference to important subjects which have been discussed, in the *Tea Gazette*, is unfortunately impracticable on their parts.

Papers on the following, amongst other topics, will be specially selected and grouped —

Soils and Manures	Bulking and Tanning	Immigration Operations
Cultivation	Timber Supply	Tea Blights and Tea Pests
Pruning	The Method to make Tea Pay	Tea Machinery
Fermentation	Labour Difficulties	New Markets
Withering	Cooling Mortality	Irrigation and Drainage
Manufacture	Contracts	New Routes

while the vast mass of Correspondence will be judiciously selected from and a *digest* of all the most important points which have been discussed carefully made.

There are numberless facts and statistics also, scattered through the Volumes of the *Tea Gazette*, for the past three years which it will be most useful to have now summarised and collated for ready reference when required while again, other important papers relating to Governmental action and policy in Immigration and Labour matters will be brought into one focus, and supplemented by the latest Rulings on the subject.

The Work will be found, thus a perfect CYCLOPÆDIA of Information and Instruction on TEA and cannot fail to prove of great interest and *permanent value* to every one engaged in the Industry.

The Book will be printed on good strong paper. It will contain some 300 pages of good clear Type, and the price including forwarding cost will be Rs 13 only—thus furnishing purchasers with a "Library of Tea Topics" at a trifling cost.

## NOTICE

The above important and valuable Work is now in the Press, and will be ready in all January 1881.

It will contain a series of *Colored Illustrations* on "**TEA BLIGHTS**," and a *Special Paper* on the same subject.

## DR. LALOR'S PHOSPHODYNE

Purifies and enriches the Blood, Clears the Skin, thoroughly Invigorates the Brain, Nerves and Muscles, Pe energises the Luling Function of Life by supplying the PHOSPHORIC element which has been wasted, and thus Imparts Energy and Fresh Vitality to the Exhausted Nerve Electric Force, and rapidly Cures every form of Nervous Debility, Pulvisis, Nervous Mind and Heart Diseases, from whatever cause.

## DR. LALOR'S PHOSPHODYNE

Being a natural Fermentative, its Invigorating Effects are not followed by corresponding reaction, but are PERMANENT, and are frequently shown from the first day of its administration by a remarkable increase of Nervous Force, with a feeling of Vigour, Strength, and Comfort, to which the patient has long been unaccustomed. DR. LALOR'S PHOSPHODYNE gives back to the Human structure in a suitable form the Phosphoric or Highly Animating, element of life which has been wasted, and exerts an important influence directly on the Brain, Spinal Marrow, and Nervous System, of a Nutritive, Tonic, and Invigorating character, thereby checking all wasting of the Vital Fluid, and the more exhausting Processes of Life, maintaining that Buoyant Energy of the Brain and Muscular System which renders the MIND CHEERFUL, HEART BRIGHT, and ENTERIC, entirely overcoming that Dull, Inactive, and sluggish disposition which many persons experience in all their actions.
